

Let's **Connect** and **Play**

The Sharon Tiger Techs are calling on teams from around the world to **connect** with each other. Let's show others how we **play** as a team! How to play? Check out our example video and the requirements to connect with us. Have some fun and let's get ready for RePlay 2020!

Connect and **Play** Requirements:

- Video includes team name, team number, and location
- Video is creative and represents all team members
- 2x4 LEGO piece must be used as object being passed (any color)
- LEGO piece must enter from right of participant/exit to the left
- Participants can use a talent/sport to represent their clip

Tips on filming and creating the video:

- Hold recording device horizontal so no black bars appear on sides of video
- Have someone else throw the brick to you from the right side
- Keep video in focus and make sure nobody else's hand is in the video
- Don't throw the brick from an angle
- Wear team shirt if you have one
- Choose a team member to collect and combine all the clips of your team in a video creator (i.e. iMovie, Movie Maker)
- One final video per team- clips of all team members put together and sent via DropBox (should be around 30-60 seconds max) by July 15,2020 (date extended).
<https://www.dropbox.com/request/V3JOEiLjMO0eYmvFffeA>
- Videos will be connected together and added to our social media and website starting on June 29, 2020.
